## Answer Key for Class 2 English Question Paper: Picture Reading

---

### Descriptive Questions

1. Describe what Jeet and Babli were doing on their holiday. How did they feel while playing together?

On their holiday, Jeet and Babli were playing various games, including skipping rope and 'bat and ball'. They felt excited and joyful as they enjoyed their time together. Their laughter and playful interaction showed they were having fun and were in high spirits during their playtime.

2. Explain the game of 'bat and ball' as played by Jeet and Babli. What happened to the ball during the game?

The game of 'bat and ball' involved Jeet preparing to throw the ball to Babli, who was armed with the bat to hit the ball. When Jeet threw the ball, Babli hit it hard, causing the ball to go flying into Mohit's garden. Unfortunately, they lost the ball, leading them to stop the game temporarily.

3. What observations can you make about the garden where the ball went? Why was it difficult for Jeet and Babli to find it?

The garden where the ball went belonged to Mohit, and it was locked at the time. Because they couldn't enter the garden to search for the ball, it became difficult for Jeet and Babli to retrieve it, causing them to be unable to continue their game. The locked house added an element of complication to their situation.

4. List the different games that Jeet and Babli played on that holiday and describe each game briefly.

Jeet and Babli played several games during their holiday:

- Skipping Rope: They took turns skipping a rope, a fun way to enhance their physical coordination.

- Hide and Seek: This game involved one player hiding while the other seeks, promoting teamwork and strategy.

- Bat and Ball: This included throwing and hitting a ball, allowing them to practice their hand-eye coordination.

5. Discuss how playing games can help children develop skills. Give examples of skills learned during playtime.

Playing games helps children develop a variety of skills such as:

- Motor Skills: Games like bat and ball improve hand-eye coordination and physical agility.
- Social Skills: Playing with others teaches teamwork, communication, and sharing experiences.
- Problem Solving: Games like hide and seek require strategic thinking to choose good hiding spots or locate friends.
- Creativity: Making a ball from rags and papers encourages creativity and resourcefulness in using available materials.

6. Reflect on a holiday you enjoyed. Describe what games you played and how you felt about your experiences.

[This answer will vary based on personal experience. An example could be:] "During a holiday, I played basketball and frisbee with my friends. It felt amazing to run around and be active. We enjoyed a lot of laughs and built stronger friendships while playing together. It was a joyful experience that I will always cherish."
